

In Their Own Words.....

Tom Rust and family -

As one of the diagnostic radiologists who knew Karen as a Teacher (she was an amazingly patient, tolerant and forgiving CPR instructor), colleague and patient, I would like to express condolences.

Karen was an inspiration to all of us. Lively, smiling in the face of Tragedy, compassionate for others while her own illness raged; she was a great inspiration.

I hope your memories are some consolation at this time of great loss.

TOM

May loving memories bring you comfort in the days ahead.

Deepest Sympathy

She was a living angel to everyone. She touched many hearts. She was very special to my husband.

Mr Rust & Family,

I truly want to extend my deepest sympathy to you & your family, I recently had an appt. with Dr Tsai and got the very sad news of Karen's passing.

I want you to know what an impact she had on my life.

When I started to go to Dr Tsai's office for treatment I was a nervous wreck.

Karen was the first person I saw at the office, she said hello & asked me how I was. I started to cry & said I didn't want to be there. When she couldn't calm me down she got the Dr & both of them spoke to me for some time. Every visit after that she would give me a big hug & reassure me that it would be over soon & that I'd be ok.

Everyone at the treatment center is wonderful but Karen will always have a special place in my heart. She got me through that first day and she gave me the courage to go for the treatments.

again, my deepest sympathy.
Yours truly.
